

REMARKS

- (1) New claims 61-72 are strictly same to previous claims 44-55 allowed by U.S patent office action mailed 18 August 2006. These claims 44-55 are now canceled. They have been renumbered as new claims 61-72. The change in renumbering these claims has been made only for maintaining a logical order in the new set of claims 56-72.
- (2) New claims 56, 58 and 59 correspond and replace previously amended claims 41(amended), 42 (amended) and 43 (amended). Those amended claims [41(amended), 42 (amended) and 43 (amended)], now canceled, were not entered by the Examiner because of raising new issues requiring further consideration.
- (3) New depending claims 57 and 60 were added in view of a better protection of new claims 56 and 58.
- (4) For the examination of new claims 56-60, the Examiner is respectfully asked to consider applicant's explanations in previous applicant's "Response under 37 CFR 1.116" mailed 18 October 2006.

Respectfully submitted

Haviv Toledo (Applicant/Inventor)

Date: January 26, 2007
